Yes—thank you for following up, Chris—I found the BERA doc and CD in my office! Sorry for the fire drill.

Speaking of doc reviews, I need to get some input from my internal reviewers before I throw out another Area 40 FS EPA comment due date so we don't miss it. These three that are reviewing the FS are in high demand at the end of the fiscal year, even more so than the rest of the year. I know the developing VI discussion is part of the delay on the toxicologist's part. We just need more time; I'll get you a target date when I get feedback from my team, but it will be definitely be into Oct at this point.

Thank you,
Lynn
